ANGELA HONTAU

http://theonj.com | https://github.com/krincle | Pennington, NJ

TECHNICAL SKILLS

Web Development:
- **LAMP (PHP)** CodeIgniter, GIT, SVN
- **JavaScript** jQuery, jQuery Mobile, Twitter Bootstrap, JetStrap, JSON, AJAX, HTML 5, CSS 3
- XML, XHTML, SQL (stored procedures and embedded SQL)
- **Databases:** MySQL, SQL Server, Oracle, MS Access
- **Languages and Software on the Windows Platform:** ASP, VB Script, ASP.NET, VB.NET, Visual Studio, Visual SourceSafe

Software Applications
- **BPM:** Metastorm BPM
- **CMS:** Wordpress, Drupal
- **Business Intelligence:** Crystal Enterprise, Crystal Reports, Business Objects XI
- **E-Commerce:** Miva Merchant
- **SSI Web:** Sawtooth SSI Web
- **Graphics Design:** Adobe Photoshop, Illustrator, Pixelmator, Visio, TrueSpace
- **IDE and Editors:** Eclipse, NetBeans, PHPStorm, XCode, Nano, Sublime
- **Other Software Applications:** Fetch FTP, WinCross, WinQuery

Others
- **Programming:** Linux (Ubuntu, KDE) OS X, Windows 95/98/NT/2000/XP/Vista/7
- **OS:** Git Hub Account: https://github.com/krincle
- **Professional Portfolio Website:** http://theonj.com

EDUCATION

- **Bachelor's Degree, Computer Information Systems (CIS)**, Summa Cum Laude Graduate from Rider University (1995 - 1999) GPA: 3.87
- Study Abroad for two semesters sent from Rider University, University of Wollongong, Wollongong, Australia
- North Virginia Community College (Continued Education from 2006 - 2009)
- Master's Program, George Mason University (2010), not yet graduated
- Certification for Completion in Crystal Enterprise 10, Crystal Reports 10, Business Objects XI (Courses taken at Data Management Group)

ACHIEVEMENTS

- Andrew J. Rider Award - academic award granted to students with a 4.0 GPA during the semester
- Presidential ($10,000/year) and Garden State Scholarships while attending Rider University
- Alpha Epsilon Zeta (Rider University)
- Phi Beta Delta - Honor Society for International Scholars (Rider University)
- Phi Theta Kappa (North Virginia Community College)
- Completed a course in Crystal Reports 10, Crystal Enterprise 10 and Business Objects XI
- Completed a course in JavaScript at Mercer Country College (Lawrenceville, NJ 2003)
- Received the "Spirit of Success" Award from Data Management Group (2004)
- Completed a 6-day course in Metastorm 7.5
- Completed a course in HTML 5 (2012)
- **URL**: http://theonj.com/hobbies-and-interests/

PROFESSIONAL EXPERIENCE

Nov 2011 – Present
TheOnj, San Francisco, CA
Owner
- Working as a Front end developer, focused on consulting, and contracts.
- Developing responsive design user interfaces using JavaScript (object oriented (OO) JS), jQuery, Twitter Bootstrap, HTML5, CSS3.
- Interfacing with various backend and public APIs.
- Back end contracts: PHP and CodeIgniter

Languages and Software Applications: JavaScript, jQuery, jQuery Mobile, Twitter Bootstrap, HTML5, CSS3, WordPress, LAMP, PHP, Code Igniter, PHPStorm, Sublime, Github, GIT, Nano

Sites:
- **Colin Woodford – The Art of Style:** http://colinwoodforddesign.com/ (Maintenance, Security)
- **Sunland Ranch:** http://sunlandranch.com (Maintenance)
- **My Portfolio Website:** http://theonj.com

Jul 2009 – Nov 2011
Lucianux, San Bruno, CA 94066
Software Engineer (Contractor)
- Started created a site in Drupal for the purpose of advertising and later e-Commerce
  The client ran out of money, but the site is online. I am hosting it with a **temporary URL:** http://theeval.info
- Worked on a feature detection program using jQuery (for cross-browser compatibility and detection) and jQuery Mobile (for mobile devices)
- Designed and developed the website for Rebel Events: http://rebelin.me/

Languages and Software Applications: LAMP (PHP), Twitter Bootstrap, CodeIgniter, Zend Framework, JavaScript, JQuery, JQuery Mobile, HTML 5, XHTML, CSS 3, Drupal, WordPress, Git, SVN, NetBeans, PhpStorm, Eclipse, Xcode, Coda, Photoshop, Pixelmator

Sites: Rebel Events: http://rebelin.me/ (Maintenance), **Lucianux**: http://lucianux.com/ (Maintenance)

May 2012
Nice Advertising, Inc., San Francisco, CA
Software Engineer (Contractor - Part Time)
- Used Miva Merchant to alter the content of the site
- Added an editor, TextWrangler, to Fetch FTP – so I can edit and troubleshoot the code
- Learned to navigate through Miva Merchant, which is an impressive large application, troubleshoot and add new content
- Altered the VB Script code in using TextWrangler and Fetch FTP.
- Implemented best practices, refactored the page structure and removed duplicate code

Software Applications: Fetch FTP. E-Commerce: Miva Merchange. Editor: TextWrangler
Languages: ASP (VB Script), HTML, CSS

Nov 2008 – Jun 2009
Velocitel Inc., Arlington, VA
ASP.NET Developer
- Added new features and maintained several existing applications – using ASP.NET (VB.NET) or ASP (VB Script)
- Created new features, and new reports, using ASP.NET, SQL, AJAX and Java Script (used for validation), HTML and CSS, to display only certain data that was pertinent to specific clients
- Refactored the stored procedures to scale the application. Created new indexes and virtual tables
- Networking: Backed up all the data on a server used solely for data storage

- Set up a virtual KVM and connected all the servers to it

Tools and Languages: ASP.NET, JavaScript, ASP (VB Script), HTML, CSS, Visual Studio, Visual SourceSafe, SQL Server 2000

Nov 2005 – Jun 2008
InterImage Inc., Arlington, VA
Software Engineer - Government Contractor
- Designed, developed, and coded applications and databases for government agencies (clients of InterImage) to create new websites, troubleshoot, increase the security and efficiency of data delivery, storage and provision of information.

Metastorm BPM Engineer for DONCJIS (Department of the Navy Criminal Justice Information System)
- Completed a six day training course in Metastorm BPM 7.5
- Worked on a team or 7 software engineers to upgrade the DONCJIS application created in Metastorm
- Used Metastorm and SQL to build the part of the application that handled leads in a criminal investigation and coded the pages that documented crimes involving a vehicle (car, truck, tank, etc.).
- Tested the application both with SQL Server and Oracle

Consulted for the Overseas Private Investment Corporation (OPIC)
- Created new applications (ASP, VB Script, SQL) and new databases (SQL Server)
- Responsible for troubleshooting and documenting over twenty different Intranet and Internet applications
- Merged tables and databases that held similar data.
- Merged databases from MS Access to SQL Server
- Created new tables with the correct primary and foreign key
- Added new users and granted and/or restricted their permissions (read, write, delete, etc.)
- Wrote and presented (to OPIC's database development team) a detailed document auditing the security of the production environment and removing security holes
- Coached and mentored newly hired co-workers. Taught several workers from other departments to use editors such as Dreamweaver and MS FrontPage. Managed a mid-level developer
- Wrote the documentation for more than three application which I created for fifteen sixteen application

Consulted for CORMIS
- Created new reports using Crystal Reports 10

Work Experience at InterImage:
- ASP.NET VB.NET, ASP, VBScript, JavaScript, SQL (Embedded Queries and Stored Procedures), HTML, DHTML, SHTML, CSS, Visual Studio, Dreamweaver MX, MS FrontPage, MS Excel, Adobe Photoshop, Visio. Databases: SQL Server, Oracle, MS Access

Oct 2004 – Jul 2005
Data Management Group, Arlington, VA
Business Intelligence
- Changed the ePortfolio of Crystal Enterprise following the client's requirements
- Created new reports using Crystal Reports 10

CSP Developer for the Library of Congress
- Customized the Crystal Enterprise ePortfolio – coded new features such as a new interface and dynamic parameters

- Added new controls: a "Search" menu, a drop-down menu, which could be modified by the user, etc.
- **Work experience:** CSP, ASP, JavaScript, Crystal Enterprise 9 and 10, Crystal Reports 9 and 10, Business Objects XI

Visual Basic 6 Developer for Friedman, Billings, Ramsey & Co
- Programmed an application to validate data from Excel spreadsheets and move the correct records to a Microsoft Access Database
- I then build a GUI application using Visual Basic 6.0 so the Law Firm could have easy access to this data

Work Experience: Visual Basic 6.0, Visual Studio, Microsoft Excel, Microsoft Access, SQL Server

Apr 2003 – Oct 2004
The Olson Research Group, Ewing, NJ
Software Engineer
- Created, coded, and analyzed countless surveys for a leading medical research firm
- Worked as part of a team in charge of creating and analyzing medical research surveys
- Programmed in Sawtooth Software SSI Web using JavaScript
- Created the demo survey (http://www.olsononlinesystems.com/demo/demologn.htm)
- Used Flash MX and Adobe Photoshop to create the graphics
- Created statistics reports from the SPSS database
- Created data analysis and reports using WinCross
- Programmed and analyzed surveys for companies such as GSK, Pfizer, ZS Associates, Adelphia Research by Design, Bristol-Myers Squibb, etc.

Work Experience: JavaScript, DHTML, HTML, CSS, Sawtooth Software SSI Web, WinCross, WinQuery, Flash MX, Adobe Photoshop, Microsoft Access, SPSS

Jan 2000 – Jun 2003
United Languages, Inc., Pennington, NJ
IT and Marketing Manager (Part Time)
- **Managerial Duties:** direct client-interaction, searched for and hired qualified translators (contractors)
- **Marketing Duties:** found new target markets which gave the company an edge: to get people who needed their driver's license translated in to English, we gave our business card to the DMV and acquired several clients in this way
- **IT:** Created designed and coded the company's website; created and maintained the company's databases
- **Work Experience:** JavaScript, DHTML, HTML, SQL, MS FrontPage, MS Access, MS Excel
